Applicant's amendment dated April 21, 2006, has been fully considered.

Applicant has amended claim 1 to overcome the rejections in the previous Office Action. Accordingly, claims 1-11 are allowed.

However, newly added claims 12-13 are not allowable because these two new claims read on a reference of record, US 6179589 (Bass et al), as follows.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-13 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6179589 (Bass et al).

Bass et al discloses a scroll compressor with a discharge valve 130 having a closed position as shown in figure 3 and an open position in figure 4. The closed position in figure 3 is equivalent with the first position of claims 12-13. When the valve is open in figure 4, the opening can be varied depending on the discharge pressure, and the whole valve assembly including valve seat 136 and valve plate 134 moves axially upward, and the flow will flow around the discharge valve including valve plate 134 and valve seat 136 to the outlet. The second position is when the valve first open, the third position is when the valve at maximum opening.

Claims 1-11 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
